A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 7/19/2006 has been entered.

This application is in condition for allowance except for the following formal matters:

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the recited feature "angles formed between phase-retarding axes of the liquid crystal films fixed in nematic or discotic hybrid alignment in the first elliptically polarizing plate and the second elliptically polarizing plate and distinct viewing direction of the liquid crystal layer, are within a range from plus 30 degrees to minus 30 degrees" of claims 1 and 6 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The amendment filed 7/19/2006 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the original disclosure does *not* disclose "the rubbing axis 41 being equal to the distinct viewing direction". It is noted that the original disclosure *does* disclose "the distinct viewing direction refers to the azimuth direction of a director of liquid crystal molecules at almost the center of the liquid crystal layer" (paragraphs 0021, 0027, 0031 and 0037).

Applicant is required to cancel the new matter in the reply to this Office Action.

Claims 14 and 15 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim 14 is redundant because independent claim 1 already recites the liquid crystal layer of twisted nematic mode. Claim 15 replaces a part set forth in the claim from which it depends. Independent claim 1 recites the liquid crystal layer of twisted nematic mode while claim 15 recites the liquid crystal layer of *non*-twisted mode (parallel alignment or homogeneous alignment mode, i.e. the liquid crystal molecules being aligned parallel and *not* twisted between the two substrates).

Claims 1, 4, 6, 13 and 16 are allowable over the prior art of record for the same reasons set forth in the Office Action mailed 4/19/2006.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
